

Trainee CCTV Vehicle Installation Engineer Bristol - Full-Time

January 2023

About VisionTrack

VisionTrack is Europe's leading provider of cloud-based video telematics and our focus is to ensure we continue to provide the best full-featured video telematics solutions to serve the growing market demand for video-enabled telematics systems.

We have won more than 40 awards for innovation in the past six years and are dedicated to improving road safety and reducing insurance claims costs whilst assisting fleet operators to improve asset tracking/utilisation, fleet optimisation, regulatory compliance, and security.

Our multi-award-winning telematics platform has been built using the latest technologies that can locate a vehicle in real-time with live video and analytics. The cloud-based solution has evolved to connect to any third-party system and is the most innovative and leading video telematics platform available on the market.

Overview

We are looking for **Trainee Installation Engineers** to provide excellent customer service whilst installing and fitting our ever-growing product range into a variety of vehicles.

We would like to talk to you if you are looking for a new challenge and have an interest in learning in a fast-paced environment where you can build a **valuable skillset**.

No experience is necessary – This is an excellent opportunity for someone looking for fast-track progression and to kick start their career with an industry leader!

What you'll be doing

This role will be field-based (from your home area) and will cover a 'section' of the UK. As this team is new, there will be some further travel expected to cover other areas as we set up and expand the team. It is an exciting time to join our company as we expand our offering and product base. We will offer you an excellent basic salary with allowances, corporate uniform, a vehicle for company use and we will train you to the highest level within the industry.

- Provide the smooth running of the installation of all types of camera on various vehicles
- Attending Service Calls, problem-solving and finding innovative ways to find solutions for the customer
- Be highly motivated and have a flexible approach to your working environment, working independently and outdoors
- Demonstrate excellent customer service
- Adhere to a high-quality of health & safety standards at all times

What we offer in return

- A collaborative and fast-paced work environment
- Full training programme to ensure you will be successful in the role
- A work van with mileage paid once fully trained
- 25 days of annual leave, plus bank holidays and the ability to buy an additional three days holiday
- Health Cash Plan
- A benefit scheme that offers discounts and cashback on shopping, restaurants, travel and more
- Life assurance policy 4 x annual salary
- A structured pathway to learn and develop
- Employee referral scheme

Qualifications:

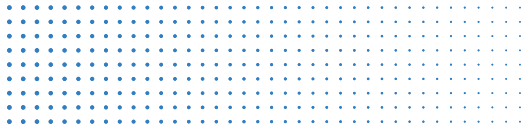

- Excellent communication skills
- Ability to work on own initiative and as part of a team
- Willing to work in a physically demanding external environment
- A full valid UK driving licence is essential for this role

What are we doing to help us build a thriving, inclusive community?

Our ambition is to build a more diverse, equal and inclusive workplace for everyone and we have a mission statement in place to reinforce our commitment. However, that's the easy part!

Our key challenges are...

- How we continue to nurture positive behaviours in our own culture to foster healthy, happy and collaborative colleagues where performance is recognised and differences celebrated.
- How we strive to build our own internal community to better reflect the diverse communities we serve.

To help us achieve this, we have recently established an employee network called **#WeAreMarkerstudy** – a body of proactive colleagues with diverse interests and experiences, who have volunteered themselves to be part of a driving force for positive change.

Change won't happen overnight or without the support of our colleagues, but we are now in a good position to make realistic and manageable plans in order to see them flourish in the future.

To apply, please send your resume and cover letter to erinlong@markerstudy.com.
